Full stack web developer with Business Management and Finance experience. Educated at University of Texas at San Antonio. Skills in HTML, CSS, REACT, and JavaScript among others. Strong leadership in managing teams, learning technology, creativity, and teamwork. Successfully implemented new processes which increased organizational and efficiency in work flows and procedures. With each project, the focus is to best engage my team and audience to create impactful user experiences. I'm excited to develop responsive websites, and provide unique perspectives on how users interact with websites, technology and applications. Passionate about approaching programming challenges and leveraging my skills as part of a fast-paced, ever-growing and quality driven industry to build better experiences for users.
